Today, Competition in business World is more fierce than ever before. In this day and age, global construction companies need stronger **business allies**. Allies with on demand **restructure capabilities, great range of products and services**. Allies that's **flexible, reassuring and strong**.

Since **2009**, Mobilon IC takes pride in itself as a trustworthy worker camping mobilization partner for construction companies. With **vast technical knowledge**, we are the right tactical and strategic partner for your business.

In parallel with our integrated industrial production viewpoint , we bring **tailor made solutions** in identical engineering. Such heavy duty products as **flat pack shelters, new generation modular prefabricated buildings, prefabricated panel systems & modular buildings, pre engineered steel structures, smart cabinets for telecom & energy, emergency housing systems and conversion kits**.

We don't fabricate industrial workplaces. We think out of the box and build **tailor made living spaces**. So you can build homes, schools, factories, communities. Communities that **respect the environment**. Our shelters are reusable **without loss and demountable**.

The result being **reduced carbon footprint, reduced manufacturing waste and reduced natural resource consumption**. So you and us have **cleaner, greener living spaces**.

Behind this **eco-friendly solutions, high quality production values** and all the technical advantages we furnish, lies elaborate, rigorous **R&D process**.

**WE DREAM A FUTURE
WHERE TRUST IS ESSENTIAL
CURIOSITY IS SATISFIED AT THE PEAKS
KNOWLEDGE IS BLISS
INITIATIVE ACTIONS ARE TAKEN
WITH ENDLESS POSSIBILITIES**

ALL IS CONNECTED

○ THE BEST PARTNER YOU CAN WORK WITH

In business life where our company is evaluated with intangible assets such as knowledge and innovation, relationships and brands, we are directing our market capital by developing our capacity in attracting, satisfying and keeping the best talents.

Every individual is respected in our group. Everything we have succeeded has been realized with a common effort. We believe that we are ready to open every door with the talents we are equipped with.

Implementing innovative human resources systems to ensure that organization structures are in line with the strategic plans and targets of our company and our human resources are managed efficiently to keep customer satisfaction at the utmost level.

HEAVY INDUSTRIAL STEEL STRUCTURES

Support Devices and Chassis for Industrial Facilities

We don't fabricate industrial workplaces. As an EPC COMPANY reflexes we think out of the box and build tailor made living spaces for employees who're far from their homes. So we can build dormitories, offices, kitchens, laundries, recreationsrooms and hangars.

Our Pre-Fabricated industrial buildings are re-usable without loss and demountable. The result being reduced carbon footprint, reduced manufacturing waste and reduced natural resource consumption. So you and us have cleaner, greener living spaces.

SOLAR SYSTEMS FOR FLAT ROOFS

SOLARION M210T is a new generation of solar modules. The frameless encapsulation of solar cells between TPO and glass provides maximum mechanical stability, durability and ease of use for roofing applications, becoming a revolutionary solution for implementation

We cooperate and open to develop any Heavy Industrial Steel Structure Project with Local or International Design / Engineering / Consultant Groups as a solution partner in producing shop drawings for them and then to proceed manufacturing and installation supervision at site accordingly. Through adept engineering, we have the ability to lay off 20,000 square meters of project proposition daily.
